OBJECTIVE

Final Year B.Tech Computer Science student with skills in Data Structures & Algorithms and Web Development. I have also hands-on practice of SQL and PostgreSQL as a Data Engineer Intern. Seeking an opportunity to apply my technical knowledge, contribute to innovative projects, and gain valuable industry experience.

EDUCATION

Poornima Institute of Engineering and Technology (PIET) **2023–2027**
Bachelor of Technology in Computer Science and Engineering | **CGPA: 9.42** (till 5th semester) Jaipur, Rajasthan

EXPERIENCE

Data Engineer Intern | Celebal Technologies **June 2026 | Present**
Remote

- Working on Python & Data Processing concepts such as CSV files, filtering, grouping and data transformations.
- Building Concepts of SQL & Data Analysis like joins, aggregations, subqueries, CTEs, window functions.
- Collaborated with developers to design algorithms and system flowcharts for enterprise modules.
- Learning Data Engineering Fundamentals like Data cleaning, missing value handling, data exploration, Apache Spark basics, and data pipeline planning.

Software Developer Intern | Vaibhav Global Limited **June - July 2025**
Jaipur, Rajasthan

- Designed and implemented RESTful APIs with JSON-based schemas and CRUD operations for inventory systems.
- Built processing of **10k+** records, reducing billing errors by 95% and improving data accuracy.
- Engineered scalable data flow with real-time stock synchronization.
- Followed SDLC practices and participated in code reviews and debugging.

Frontend Developer Intern | QDOM Technologies **June 2024**
Jaipur, Rajasthan

- Developed responsive websites using HTML, CSS, and JavaScript.
- Optimized UI layouts and styling, improving page performance and enhancing user experience.

PROJECTS

Inventory Billing System  | **Vite, React, TypeScript, Tailwind CSS, JSON** **June 2025**

- Designed JSON schemas, CRUD operations, and ETL pipeline for inventory transformation.
- Built scalable React architecture with real-time stock synchronization and Vercel deployment.

InsightX – ML Regression Model | **Python, Pandas, Scikit-learn, Kaggle** **January 2026**

- Engineered end-to-end ML pipeline from ingestion to evaluation; ranked 4th in Kaggle competition.

Faculty Management System  | **HTML, CSS, JavaScript** **September 2024**

- Implemented client-side persistence and multi-entity rendering for faculty, schedule, and attendance.

SKILLS

Languages: C, C++, Python, Java, JavaScript, Typescript.
Frontend: HTML5, CSS3, Responsive Design, Cross-platform Components, React.js, Vite, Tailwind CSS, Bootstrap, Material Design, component-based styling.
Data Engineering: SQL (PostgreSQL/MySQL), Data cleaning and transformation, Pandas, Scikit-learn.
Coursework: Data Structures & Algorithms, Object-Oriented Programming, AI/ML, Database Management Systems.
Cloud & DevOps: AWS (EC2, RDS, S3), Git, GitHub, Vercel, Netlify.
Tools and Frameworks: VS Code, Figma, Canva, Eclipse, **Familiar with:** Maven/Servlets.
Soft Skills: Public Speaking, Teamwork, Leadership, Volunteering.

ACHIEVEMENTS

- Completed Google Cloud Career Launchpad – Cloud Engineer Track
- Ranked **4th** in InsightX Kaggle ML Competition for building an end-to-end regression model.
- NPTL Silver Medallist: Fundamentals of OOP (C++, Java, Python)
- NPTL Silver Medallist: The Joy Of Computing Using Python.
- NPTL Certified: Data Structures and Algorithms using Java
- Solved **200+ problems** on Leet-Code (Data Structures & Algorithms)

EXTRACURRICULAR

- **Captain**, AWS Cloud Club at PIET Jaipur – Academic Year 2024–25
- Volunteered as part of the Content & Hospitality Team in the college annual cultural fest, 2024–25
